His latest venture, 'Louis Theroux: Inside the Manosphere', promises to delve into one of the most contentious and misunderstood phenomena of our time: the growing ultra-masculine network and its influential figures.

Scheduled for a digital premiere on March 17th, 2026, on BBC iPlayer and subsequent streaming platforms, 'Inside the Manosphere' marks a bold step forward in Theroux's illustrious career, as he embarks on an unflinching exploration of a world where traditional masculinity has been amplified to disturbing extremes.

The documentary grants Theroux rare access to key figures within the manosphere, individuals who have built massive followings and wield significant influence online. The film's subject matter is undeniably timely and contentious. As the manosphere continues to spread its reach, it has become increasingly clear that its proponents are not merely advocating for traditional masculinity, but rather, a toxic ideology that encourages aggression, misogyny, and division. Theroux's documentary promises to hold a mirror to this phenomenon, exposing the darker aspects of a world where online bravado and virtual victimhood are normalized.

"I've always been drawn to stories that are complex and multifaceted," Theroux said in a statement. "The manosphere is a fascinating, if disturbing, example of how social media can amplify and distort certain ideas. I'm eager to explore the world of these influencers and their followers, and to examine the consequences of their actions."

The digital premiere of 'Louis Theroux: Inside the Manosphere' marks a significant milestone in the documentary's global reach.
