Viewer's Guide: The Bride! (2026)

Warning: This guide contains minor spoilers for the film.

Plot Summary:

In the eerie and suspenseful 'The Bride!', we follow the journey of a lonely Frankenstein, voiced by Oscar Isaac, as he travels to 1930s Chicago to enlist the expertise of the renowned scientist, Dr. Euphronious, played by Benedict Cumberbatch. The Frankenstein, driven by a deep longing for companionship, asks Dr. Euphronious to create a being to be his equal, a companion to share his life with.

With the help of Dr. Euphronious, they revive a young woman, Emma, who was brutally murdered in the streets of Chicago. As Emma is brought back to life, she awakens as 'The Bride', a being with a unique and terrifying presence. The film takes a dark turn as The Bride begins to assert her own identity, free from the control of her creators. The two scientists are left to confront the unintended consequences of their experiment, and the true nature of The Bride.
